Land for Good Elements of a Good Farm Lease: <https://landforgood.org/wp-content/uploads/LFG-Elements-of-a-Good-Farm-Lease.pdf>

The Web Soil Survey is an online tool that can tell you valuable information about the soil, though the scale is sometimes not as accurate for small parcels.

<https://websoilsurvey.sc.egov.usda.gov/App/HomePage.htm>

An additional tool is UC Davis' Soil Web. UC Davis Soil Web is faster and easier to use than the USDA Web Soil Survey, and can be used on a variety of platforms (desktop, mobile, tablet). The UC Davis Soil web was developed by the California Soil Resource Lab at UC Davis and UC-ANR in collaboration with the USDA Natural Resources Conservation Service.

Explore this link for detailed instructions on using UC Davis' Soil Web tool:
